"Be the change that you want to see in the world."

Summary

A high performing and dedicated professional equipped with the experience and skill to work in a dynamic and technical environment and close to three years of experience working with global clients. An eager learner, I pride myself on my ability to successfully take on new challenges and develop ever expanding areas of expertise. Among my strengths, I am a disciplined and hardworking individual with a demonstrated ability to balance the competing demands of multiple projects. Passionate about innovative solutions and complex technological challenges, I have established a reputation as an effective and valuable employee. A skilled communicator with the ability to establish rapport with diverse people and effectively collaborate within a team and highly adaptable with the qualities needed to be efficient in fast-paced multitasking environments. A resourceful and confident individual with an infectious enthusiasm for technology, innovation and all forms of learning.
